John Tweedy, F.R.C.S.†	Ophthalmic Medicine and Surgery.

Head Master of School.—H. Weston Eve, M.A.†

* Fellow of the College. † Life Governor of the College.

REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Wednesday, February 23rd, 1898.

I. SESSION 1896–97.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1451, being a decrease of 30 on that of the preceding Session. Of these 1010 were Students in the College, and 441 Pupils in the School. Of the Students, 294 belonged to the Faculty of Medicine, 100 being new Students: in the Faculties of Arts and Laws and of Science there were 716 Students, 367 being new Students. The largest number of Boys in the School in any one Term was 354.

In the Faculties of Arts and Laws and of Science these figures show, as compared with the preceding Session, an increase of 17 in the new Students and a total decrease of 31; and in the Faculty of Medicine an increase of 9 in the new Students, and a total decrease of 21.

The Fees received (exclusive of those for Clinical Instruction) amounted to £23,205 0*s.* 0*d.*, being £1470 10*s.* 6*d.* less than in the Session 1895–96.

The details for the two Sessions compared were as follows:—

	1896–97.			1895–96.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	4,090	16	0	4,463	0	6
Faculties of Arts and Laws and of Science	11,144	14	0	12,001	10	0
School	7,969	10	0	8,211	0	0
	£23,205	0	0	£24,675	10	6

In addition to the above-stated amounts, the sum of £1,275 15*s.* 0*d.* was received for Clinical Instruction in the Hospital, making a total of £5,366 11*s.* 0*d.* paid by Students of the Faculty of Medicine in the Session.

The share of fees paid to Professors, Teachers, and Masters amounted to £16,509 12*s.* 1*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division at the June Examination for Matriculation in the University of London, was given originally by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving the Prize from year to year. It was not awarded last year. The Horton Memorial Scholarship was awarded to C. H. Arnhold.

In 1897 15 pupils passed the Matriculation Examination of the University of London.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1892–93.....	416	415	404	412
1893–94.....	390	377	369	378
1894–95.....	355	366	356	359
1895–96.....	349	353	367	356
1896–97.....	352	339	354	348

From the Tables submitted it appears that 12 boys were entered in the Black Book last Session, the total number of entries being 13

Four Scholarships, defraying half the cost of admission to the School for three years, will in July be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not.

THE BRANCH SCHOOL.

The Preparatory School at Hampstead is making satisfactory progress under the Head Master, Mr. C. Simmons. There are at present 78 boys in the School.

II. GENERAL FINANCES.

The excess of expenditure over receipts for the past Session was £4,034 18*s.* 6*d.*

There was at the end of the Financial year £2,098 7*s.* 7*d.* on the debit side of the Old Building Fund Account, and £19,693 7*s.* 1*d.* on the debit side of the Buildings Extension Account, 1890, representing expenditure on these accounts unprovided for by contributions.

The Balance Sheet is this year presented in a new form. Acting on the advice of the Auditors, the Council decided to open a Capital Account, and for this purpose the value of the lands, buildings, and other property of the College was roughly estimated at £186,000.

The investments held by the Council for general purposes have also been revalued in order to bring the book value nearer to the market value of the day. They now stand therefore at £11,225.

Further, in the Balance Sheet, the Trust Funds held by the College have been dealt with separately. These (excluding Hospital Funds) stand in the books at a total cost of £269,539 19*s.* 5*d.*, but a moderate estimate of their actual value is £323,000. The Hospital Trust Funds are worth about £156,000. It appears then that investments held by the Council for the College and Hospital combined are worth nearly half a million (£490,000), and for the College alone considerably more than £300,000.

Very little however of the interest produced by these funds is available for the general maintenance of the College. It may be said with some truth that the greater the endowments, the greater the general expense. For the increased payments in rates, water, heat, light, attendance and apparatus more than counterbalance any profit which may accrue by the establishment of a new laboratory or the endowment of a new Chair.

The difficulty of maintenance is an increasing difficulty. In spite of Parliamentary and Municipal assistance, and of such economy as it is possible, consistently with any high standard of efficiency, to practise,

the large and growing burdens of rates and repairs place it beyond the power of the Council to make expenditure balance income even in ordinary years: and when, as last Session, there is a falling off in fees, there necessarily results a striking deficit such as that of upwards of £4,000 which the Council regret to have to call attention to on the present occasion.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1898, have been as follows:—in the Faculty of Medicine, 238, of whom 55 are new Students; in the Faculties of Arts and Laws and of Science, 590, of whom 256 are new Students.

The entries in the School, in Michaelmas Term, were 359, of whom 59 were new pupils; in the present Term, 361, 45 being new pupils; adding the 78 Boys in the Branch School at Hampstead, this makes 439 in all.

The College Fees received to February 1st are £2,861 15*s.* 6*d.* in the Faculty of Medicine, and £8,948 12*s.* 6*d.* in the Faculties of Arts and Laws and of Science.

IV. THE YEAR FROM FEBRUARY 1897 TO FEBRUARY 1898.

SCHOLARSHIPS AND OTHER DISTINCTIONS AWARDED IN THE COLLEGE*.

A. *FACULTIES OF ARTS AND LAWS AND OF SCIENCE.*

Slade Fine Art Scholarship (£35 per annum for two years):—
Elinor M. Monsell.

Andrews Entrance Scholarships (£30):—
Languages & Science, *K. T. B. Tressler.*
Science, Agnes Robertson.

Andrews Scholarships for Students of one year's standing (£30):—
Classics, S. H. G. Hughes.
Languages, Hilda L. Wace.
Science, R. Moritz.

Jews' Commemoration Scholarship (£15 per annum for two years):—H. J. Tomlinson.

Fielden Scholarships:—
Junior German (£15), W. W. Benn.
Senior French (£25), F. N. Hales.

Clothworkers' Exhibitions (£30):—
Chemistry, *P. Haas.*
Physics, *J. L. Capes.*

Tuffnell Scholarship (£100 per annum for two years):—
S. Smiles.

Hollier Scholarship (£60):—
Hebrew, M. Bensky.

West Scholarship (£30):—*W Makower.*

Case Exhibition (£20):—*K. T. B. Tressler.*

Malden Medal and Scholarship (£20):—Agnes S. Paul.

* Names printed in *italics* are those of former pupils of University College School.

HEIMANN MEDAL:—F. N. Hales.
MORLEY MEDAL:—Lela Porter.
DONALDSON MEDALS:—C. F. Dawson, M. H. West.
QUAIN STUDENTSHIP (£150 per annum):—English, T. G. Foster, B.A., Ph.D.
1851 EXHIBITION SCIENCE SCHOLARSHIP (£150):—P. Williams.

B. *FACULTY OF MEDICINE.*

ATKINSON MORLEY SCHOLARSHIP (£45 per annum for three years):—H. B. Shaw.
ATCHISON SCHOLARSHIP (£60 per annum for two years):—M. Dixon.
FELLOWES GOLD MEDALS:—M. Dixon, F. H. Thiele.
FILLITER EXHIBITION (£30):—J. E. Simpson.
ERICHSEN PRIZE:—T. Marles-Thomas.
CLUFF PRIZE (£15):—W. F. Addey.
TUKE MEDALS:—J. Ll. Tuckett.
SHARPEY PHYSIOLOGICAL SCHOLARSHIP:—B. Moore, M.A.
MEDICAL ENTRANCE EXHIBITIONS:—
(£137 11*s.*), J. E. Stratton.
ea. (£57 15*s.*) } J. D. Bolton. H. A. Lyth.

DEGREES AND EXAMINATIONS FOR DEGREES.

UNIVERSITY OF LONDON.

January 1*st to December* 31*st*, 1897.

Examination	No. passed from University College.	No. from Univ. Coll. in Honours or First Division.
Matriculation	21*	9
Intermediate Exam. in Arts (*Pass & Hon.*)	7	1
Interm. Sci. (*Pass & Hon.*)	9	4
Prelim. Sci. (M.B.) (*Entire*) (*Pass & Hon.*)	23	
Interm. Sci. & Prelim. Sci. (M.B.) conjointly	2	1

DEATHS OF MEMBERS OF THE COLLEGE.

Sir Rutherford Alcock.
Sir E. A. Bond.
Sir J. C. Bucknill.
Dr. F. Chance.
Mr. R. L. Chance.
Sir A. W. Franks.
Mr. James Heywood.
Mr. R. H. Hutton.
Sir J. C. Lawrence.
Sir W. M. Lawrence.
Mr. L. Lewis.
Mr. John Morley.
Mr. A. J. Mundella.
Rev. H. R. Reynolds.
Prof. Sylvester.
Mr. C. P. Villiers.
Mr. E. West.

PROFESSORIAL AND OTHER APPOINTMENTS.

The Council regret to report the death of Prof. F. Althaus, Ph.D., who had held the Professorship of German for over twenty years. Mr. F. de Baudiss, one of the Assistant-Masters in the School, has been appointed Lecturer on the German Language and Literature for the current Session.

The Council and the Senate have been in communication with the

Trustees of the late Sir Edwin Chadwick with reference to the establishment in the College of a Chair of Municipal Engineering. The generosity of the Trustees has enabled the Council to found such a Chair, and Mr. Osbert Chadwick, C.M.G., has been appointed the first Professor. Professor Chadwick, however, declines to accept any remuneration for his services; accordingly the emoluments of the Chair will be devoted by the Council to the payment of lecturers recommended by the Professor. The arrangement with the Chadwick Trustees is for three years.

The same Trustees have also promised for three years the sum of £200, one-half of which will be paid to the Professor of Hygiene for the delivery of Special Lectures on Sanitary Science, the other half defraying the expense of assistance, diagrams, &c., in connexion with the lectures. In addition to these Endowments, the Chadwick Trustees have kindly promised a donation of £1000 to be expended in apparatus under the direction of the Professor of Hygiene, of the Professor of Civil Engineering, and of the Professor of Municipal Engineering. The Council have named the existing Chair of Hygiene the Chadwick Professorship of Hygiene and Public Health, and the newly-founded Chair of Municipal Engineering the Chadwick Professorship of Municipal Engineering.

Prof. F. W. Oliver has been re-appointed for seven years to the Quain Chair of Botany, and Mr. Augustine Birrell has been re-appointed for one year Quain Professor of Comparative Law.

Two new Lectureships have been established: first, the Yates Lectureship in Archæology, to which Mr. J. Romilly Allen has been appointed: secondly, a lectureship in Indian History, which has been accepted by Mr. Romesh C. Dutt, C.I.E.

Last autumn Prof. Carey Foster gave notice of his intention to resign the Professorship of Physics (now called the Quain Professorship), which he had held for upwards of thirty years. The Council passed the following unanimous resolution:—

> "That, in accepting the resignation of Prof. Carey Foster, the Council desire to record their high appreciation of the services he has rendered to the College during the long period of thirty-two years, and of the distinction which his eminent scientific position has conferred on the College. They desire also to express their hope that the termination of his professorial work will not sever his active connexion with the College, and that they may still have the advantage of his assistance as a Member of the Council."

In January Prof. Charlton Bastian tendered his resignation of his Physiciancy to the Hospital after thirty years' service and of the Chair of Clinical Medicine which he has held for nearly twenty years.

The Council unanimously passed the following resolution:—

> "That the Council, while accepting Dr. Bastian's resignation of the Professorship of Clinical Medicine and Physiciancy to the Hospital, desire to express their regret at the termination of his connexion with the Hospital, and to thank him for the services which he has given to the College and Hospital as Professor and Physician."

PARLIAMENTARY GRANT & TREASURY INSPECTION.

The Report of the Commissioners appointed by the Treasury to inspect the University Colleges in England was made public early last year. It was eminently favourable to this College, and the result was that the Grant from Parliament was increased from £1700 to £3000 a year.

The following introduction to the Report on University College will be read with interest:—

"University College, London, which, founded in 1828, has now had a history of nearly 70 years, is a place of learning of some considerable prestige and tradition, and can make good the claim, which it puts forward, to have been in a sense the pioneer and model of the University Colleges throughout the country. It has produced during the years of its existence many *alumni* of much distinction, and some of great eminence, alike in literature and science and in affairs, and has contributed not a little to the education and to the intellectual life of the country. At the present moment it possesses, as it has done in the past, a staff of Professors and Teachers of recognised and in many cases very special merit, and it has always endeavoured and still endeavours, whatever its means, to maintain a high standard of learning and teaching, and to encourage with comprehensive liberality the general advancement of knowledge and culture.

"It goes almost without saying that with such a body of Professors the quality of the teaching in the advanced classes is of a high order. But it should be added that the Professors do not spare themselves in their endeavours to impart instruction to beginners; and though, on a superficial view, it may seem wasteful to employ the powers of such men in elementary teaching, nevertheless it cannot fail to be of advantage to the learners to have their studies directed by master-minds in their respective lines.

"The standards proposed are generally those of the examinations for the London University degrees, to suit which the classes and lectures are arranged. For various reasons, however, there is a growing tendency—not in our opinion an unhealthy one—for students to study independently of these degrees, and the results of the work of the College, therefore, must not be too exclusively estimated by the number of graduations in the University of London, whether Pass or Honours. At the same time it may be remarked that such students as present themselves for these degrees attain a satisfactory and creditable measure of success.

"On the Arts side especially, students of marked promise are now much encouraged by the Professors, who act in this matter in a self-denying spirit, to proceed to the older Universities, and the many distinctions won by them there afford another proof of the excellence of the training given in London. On the Science side, in most or all of the departments, there are advanced students who continue their work under the guidance of the Professors, or engage in research under their direction. In this respect again the College is rendering service of the highest value both to education and to the advancement of knowledge. It is noticeable, too, that the Professors, although the

College is not residential, and although they are apparently in no way bound to do more than deliver their lectures and conduct their classes, are in the habit to a large extent of acquainting themselves with, and interesting themselves in, the individual needs of their students. We were informed that they do what they can to assist the students in their debating and other societies, and generally to encourage their intellectual tastes."

The Commissioners indicate some deficiencies in the College arrangements, especially as regards the Chemical and Zoological Laboratories, and the accommodation for the practical classes of Physiology and Botany. The Council have long been aware of the existence of these wants, and have desired to meet them, but the finances of the College have not enabled them to do so; and they would ask the members of the College to assist them in this matter.

The Commissioners also refer to the needs of the General Library; and the question whether some improvements in the present arrangements cannot be made is being carefully considered.

THE PENDER MEMORIAL FUND.

The sum of £5,000, which, as announced in last year's Report, was promised by the Sir John Pender Memorial Committee as an Endowment for the Electrical Laboratory, was handed to the Council last summer by the Marquess of Tweeddale, Chairman of the Committee, and has been since invested in Bank of England stock. The Electrical Laboratory will be known in future as the Pender Laboratory, and the Chair now occupied by Prof. Fleming as the Pender Chair of Electrical Engineering.

THE LATE SIR J. C. BUCKNILL.

Sir John Bucknill was educated within these walls; he was a Fellow of the College, and sat for some time upon the Council, though he resigned his seat about twelve years ago. By his Will, he made the College one of three residuary legatees, and directed that the Council should invest the share of his estate to which the College would become entitled in order to found a Medical Scholarship to be called after his name. It is anticipated that the College share will be about £5000.

ATHLETIC GROUND.

A scheme for the acquisition and maintenance of an Athletic Ground at Acton, prepared by the Union Society, has been approved by the Council. The Council has signed the lease of the ground and become responsible for the rent under the following conditions:—(*a*) That the Union Society raise two funds—Fund A of £500 for the building of a pavilion and for the general equipment of the ground. Fund B of £50 per ann. or a capital sum of £1500 to meet the rent-charge. (*b*) That the Union Society put aside 75 % of the excess over £250 of its income from members' subscriptions for the purpose

of meeting the deficiency, if any, in the Rent Fund. (*c*) That the charge for maintenance be made upon the ordinary revenues of the Union Society.

Both Funds have been started, and have been subscribed to by the Crabb-Robinson Trustees, by Members of the Council and Senate, and by past and present students and others. Fund A now amounts to £390. The Crabb-Robinson Trustees have contributed £100 to this fund. Towards Fund B £70 has been promised in donations, and £13 per ann. for 5 years in annual subscriptions.

The Union Society took possession of the ground at Michaelmas and has made constant use of it throughout the football season, to the great advantage of the Clubs. The ground has been thoroughly drained, and special pitches for tennis and cricket laid. The Pavilion has been planned by Mr. Elsey Smith and is to be begun at once, and will, it is hoped, be ready for the Cricket season. Messrs. Roger Smith & Son have kindly presented the plans to the Union Society, and have also undertaken to superintend their execution.

The need of such a ground for the Clubs of the College has long been felt, and the Council trust that the movement will meet with the support it deserves.

FOUNDATION WEEK.

With the approval of the Council and Senate a series of festivities was arranged by the Union Society to celebrate the Foundation of the College. "Foundation week" was most successfully inaugurated on June 14th with a brilliant Oration by Prof. G. Vivian Poore, on "The History of University College." The President was in the chair, and the Botanical Theatre was filled with a large audience, including many members of the Corporation and large numbers of past and present students. The other festivities were a concert, a dance, and the annual athletic sports, all of which were well supported.

PEEL MEMORIAL FUND.

The Income of the Fund in 1897 was expended in the purchase of books, &c. presented to the Claydon Public Library, Winslow, Bucks, the St. Columb Working Men's Institute, Cornwall, the St. Pancras Free Library, London, and the Hawarden Institute, Chester.

LIBRARY.

The Supplement to the Library Catalogue was completed and printed in March 1897. It contains the Barlow Dante, Grant Literary, Quain Law, Fine Art, and Chemical Library Catalogues, as well as the other additions, excluding medical and zoological, acquired previous to 1887.

A Catalogue of additions to the General, Medical, and Grant Libraries during 1896 has been printed; and a Catalogue for 1897 is in preparation.

The donations to the Library during 1897 were as follows:—

HOSPITAL.

Since the issue of the last Report, Sir J. Blundell Maple, M.P., has come forward in a most generous and public spirited manner, and has undertaken to build the New Hospital at an estimated cost of £100,000.

Heartfelt thanks are due to Sir J. Blundell Maple for his munificent gift, which will be a lasting benefit to the sick poor of St. Pancras and surrounding districts.

The Hospital will be built after plans by Mr. A. Waterhouse, R.A., upon a much more extensive site than that of the present Hospital, and will afford far better accommodation for patients, and increased facilities for their treatment and for clinical instruction. Provision will also be made in the building for the Nursing Staff, for whom it has been necessary for some years to take houses elsewhere.

The whole of the additional Property necessary for the extension of the Hospital has been acquired.

The excavations for the first Wing of the Hospital having been completed, the first Wing of the building was commenced on the 3rd September, and the building of the Central Block has lately been begun.

It must, however, be borne in mind that Sir Blundell Maple's gift is for building purposes only, and will not place the Committee in a better position as regards the maintenance of the Hospital.

It is a source of gratification to the Hospital Committee and Medical Staff that Her Majesty the Queen, Patron of the Hospital, has conferred a knighthood upon Dr. W. R. Gowers, F.R.C.P., F.R.S., Consulting Physician to the Hospital.

Mr. H. J. Curtis, F.R.C.S., has been appointed Surgical Registrar, *vice* Mr. Douglas Drew, whose term of office has expired.

The Committee are much pleased to announce that the late Brigade-Surgeon Lieut.-Col. R. C. Chandra, an old student of University College and Hospital, has endowed a bed, called the "Mary Chandra" bed, with a sum of £2000 in memory of his wife.

In the early part of 1897 the students of the College and Hospital, and the nurses collected the handsome sum of £1020 16*s.* 0*d.* towards the maintenance of the Hospital.

The Committee were compelled to close 50 of the 210 beds, and to dispose of £3000 Bank Stock, the last fund available for General Purposes, to enable them to clear off the debt of £9000 to the Bankers, and to provide a sum of money to pay some of the most pressing debts to Tradesmen.

They have since been enabled, by means of a grant made for the purpose from the Prince of Wales's Fund, to re-open 25 of these beds, that being a condition attached to the renewal of the grant.

Return of Services of the Members of Council from January 1st to December 31st, 1897, inclusive. Meetings of Council 14, of Committee of Management 20, of Senate 6.
